

# PGY1/ PGY 2 Health Systems Administration: Management

PGY1 General Practice Residency

PGY 2 Health Systems Administration: Management

MBA

## Objectives

Comprehensive clinical and leadership experiences in health system pharmacy administration for a 2 year commitment. The first year residency rotations are designed to prepare the resident to function as well-rounded, independent, competent clinical pharmacists in patient care positions in an organized health care setting. The program focuses on the development of skills in a variety of practice settings including general medicine, acute care, ambulatory care, practice and project management, drug information, teaching, and research. The second year residency core rotations are spent with pharmacy leadership including the chief of pharmacy, assistant chief of pharmacy, inpatient and outpatient pharmacy supervisors, the clinical coordinator, residency coordinator, pharmacy benefits management team, and the medication safety pharmacist. The resident will learn and develop the skills necessary by working with the pharmacy and facility leadership teams to prepare them to assume a leadership role upon completion of the program. Opportunity to pursue Master in Business Administration will be available in conjunction with the program.

## Accreditation

ASHP pre- candidate status.

## Facilities

The VA Medical Center in Portland is the primary training site for this residency program.

## Responsibilities

The resident will use the inpatient and ambulatory care settings to develop competencies in clinical pharmacy practice. Residents participate in ward rounds, attending rounds, case conferences and seminars with the medical staff. Residents also participate in provision of services by the clinical pharmacy staff. Teaching opportunities include precepting Pharm.D. candidates, in services to staff, and completing a teaching certificate through Oregon State College of Pharmacy and Pacific University. Opportunities for involvement in activities of the Pharmacy and Therapeutics Committees, Medication Use Evaluations, Medication Safety, Management and Leadership, and Staffing. Additionally, residents are encouraged to contribute to the pharmacotherapy literature by conducting an original research project. The resident will use pharmacy leadership and administration environments to develop competencies in administrative pharmacy practice. These areas include pharmacy service management, staffing, budget

management, pharmacoeconomics, and clinical administration. Residents actively participate in leadership activities and will be included on multiple workgroups and committees. The resident will serve as the chief pharmacy resident and will also have clinical opportunities to maintain clinical practice skills.

#### Eligibility

Applicants should have a Pharm.D. and be a United States citizen and have successfully and are committed to a 2 year commitment. Successful completion of PGY-1 is expected to pursue PGY -2 HSPA.
